Docket No. PF09-11-001

**NOTICE OF ALASKA PIPELINE PROJECT IN RESPONSE TO
COMMISSION'S MARCH 31, 2010 ORDER**

On January 29, 2010, TransCanada Alaska Company LLC ("TC Alaska") filed in the above-captioned docket its "Request for Commission Approval of Detailed Plan for Conducting an Open Season" for its Alaska Pipeline Project ("APP"). By order issued March 31, 2010, the Commission approved the open season plan, with certain modifications regarding (1) TC Alaska's opening of its data rooms to allow inspection of documents and information, and (2) revisions to its Compliance Procedures. By this notice, TC Alaska advises the Commission and all interested parties of its plans regarding the referenced modifications.

I. Data Rooms

In its Request for Approval, TC Alaska indicated that it will establish data rooms to house much of the information required by Section 157.34 (c)(18) of the Commission's regulations. The main data room will be set up in Houston, Texas, and adjunct data rooms will be set up in other specified locations.

In its March 31 order, the Commission required that TC Alaska "immediately open its data rooms to allow inspection of documents and information." Order, ¶ 64. Therefore, TC Alaska will open its main data room in Houston on April 2, 2010, and the Anchorage data room will open no later than the week of April 5, 2010.

II. Compliance Procedures

In its order, the Commission found that TC Alaska's "Compliance Procedures track the requirements imposed by Order No. 2005, with some minor exceptions as noted herein." Order, ¶ 92. Those exceptions relate to the scope of Order No. 2005 and to the definition of affiliate. *Id.*, ¶¶ 92-94. Before commencing its open season, TC Alaska will revise the information contained in its Compliance Procedures, and, as relevant, the information contained in Items 19, 20, and 21 of Section 157.38 (c), consistent with the order and Order No. 2005-B.

Respectfully submitted,

/s/ Eugene R. Elrod
