Alaska Pipeline Project Data Rooms and Access Procedures

The Alaska Pipeline Project has established data rooms in Houston, Calgary, Anchorage and Whitehorse to allow for potential shippers and other interested parties to review information about the project. Procedures have been established to allow tiered levels of access to the data room materials based on the nature of the information request.

To arrange a visit to the data rooms, please send an email or fax at least seven (7) days prior to the requested visit date to:

The Data Room Coordinator
Email: betty.j.parks@exxonmobil.com
Fax: 262-314-3342

The request should include the following information:

- Requestor's name and company

- Requestor's phone number and email address

- Data Room location(s) access is being requested for

- Date(s) and time(s) access is needed

- Contact information for all the visitors the request is being made for, including names, phone numbers and email addresses

- Company or Party visitors are representing (if different from Requestor's)

APP reserves the right to allocate data room access on a first-come, first-served basis and further reserves the right to offer priority access to the data rooms to potential shippers. All persons seeking access to the data rooms must sign a confidentiality agreement.
