

UNITED STATES OF AMERICA  
FEDERAL ENERGY REGULATORY COMMISSION

TransCanada Alaska Company, LLC

Docket No. PF09-11-000

NOTICE OF PUBLIC SCOPING MEETINGS  
FOR THE PLANNED  
ALASKA PIPELINE PROJECT

(December 9, 2011)

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will conduct public scoping meetings as part of their preparation of an environmental impact statement (EIS) on the Alaska Pipeline Project (APP). The APP is a planned natural gas pipeline system that would transport gas produced on the Alaska North Slope to the Alaska-Canada border to connect with a pipeline system in Canada for onward delivery to markets in North America. The APP is being advanced jointly by TransCanada Alaska Company, LLC and ExxonMobil Alaska Midstream Gas Investments, LLC.

More information about the Commission's EIS and the APP is available in the *Notice of Intent to Prepare an Environmental Impact Statement for the Planned Alaska Pipeline Project and Request for Comments on Environmental Issues* (NOI), issued August 1, 2011. The NOI describes the scoping process that is under way seeking public participation in the environmental review of this planned project. The public scoping meetings, listed below, provide an opportunity to submit verbal comments in addition to, or in lieu of, written comments on issues of environmental concern related to the APP. Please note that the scoping period for the APP will close on **February 27, 2012**.

The NOI and additional information regarding the pre-filing review of this planned project is available from FERC's Office of External Affairs at **(866) 208-FERC (3372)** or on the FERC website ([www.ferc.gov](http://www.ferc.gov)) using the eLibrary link. Click on the eLibrary link, click on "General Search," and enter the docket number, excluding the last three digits in the Docket Number field (i.e., PF09-11). Be sure you have selected an appropriate date range.
